### SUMMARY

As a Master in Software engineering with experience in Full Stack Web Development ,I bring a competitive attitude to the IT field. With current IT knowledge, interpersonal skills and a strong desire to compete in the IT industry ,I look forward to contributing to the success of your business.

### EXPERIENCE

#### Full stack web developer

Xpert infotech

January 2015 to March 2017, Ahmedabad ,India

- Work with development teams and product managers to ideate software solutions
- Design client-side and server-side architecture
- Build the front-end of applications through appealing visual design
- Develop and manage well-functioning databases and applications
- Write effective APIs

#### Fronted Developer

Freelance

November 2019, Australia

- Use markup languages like HTML to create user-friendly web pages
- Maintain and improve website
- Design mobile-based features
- Collaborate with back-end developers and web designers to improve usability
- Get feedback from, and build solutions for, users and customers

### PROJECTS

#### Complex Bid Module Integration

The Reinvention Network · 2020

- The web application of Complex Bid Module Integration (SWE) is for bidding process of projects for the client's consultancy firm.
- This integration of four dashboards of the users of the web application for the process of bidding will help in the data collection of client's projects and hence in decisions making, ideas gathering, scheduling, cost and risk analysis, and proposal documentations to bid for a single project.
